

Subject: Advisory - Newly Ident Spotting / Cultivation Tech Adopted by HIAs (Advisory No.38)

1. Introduction. Recently, a new technique of HIAs for spotting intended targets has been observed. Using Pakistani WhatsApp numbers, female intelligence operators of HIAs discretely approach the targets offering an easy money-making opportunity. Subsequently, using cover of a company developing a GPS application, the interested / trapped individuals are gradually persuaded for espionage. Extract of such a chat is placed attached at **Appendix-I**. Gist of these new techniques is as under: -

a. Pre-selected targets are initially approached via WhatsApp using Pakistani numbers, by offering them an easy money-making opportunity as depicted in given images.
